ALPINE ADVENTURES - NH'S LEADING SNOWMOBILE & OFF ROAD
TOUR OPERATOR ANNOUNCES EXPANDED WINTER TOURS.

LINCOLN, NH, OCTOBER 10, 2005 – Coming off another very exciting & successful season of their “Summer Safari” off road tours (the first of their kind in the east), Alpine Adventures announces plans for expanded winter operations of their Off-Road and Snowmobile Tours.

The “Summer Safari” tours have created quite a buzz in the northeast over the last two years, attracting the attention of TV stations such as WMUR ch.9, WNDS ch.50, PBS and WHDH ch.7 out of Boston. These new tours combined spectacular views and an exciting off road ride with music and fun tour guides to create a unique experience that was an instant hit with customers.

The tours are run with Pinzgauer, 6 wheel drive military vehicles. The open design and incredible off road capability of the vehicles are a great platform for these tours. The trucks have been modified with bucket seats for comfort and increased visibility along with a state of the art sound system to create an entertaining, as well as scenic trip.

“Our winter trips continue to focus on the amazing scenery of the area, however they still provide the extreme off roading that makes our summer tours so popular” says Randy Farwell, owner. “These are very unique tours and give people a new way to experience the spectacular winter landscape, the combination of some serious off-roading and incredible scenery make these tours fun for the whole family and are perfect for corporate groups and company outings, as we can accommodate 22 people at a time with our two vehicles.”

Along with the Winter Safari trips, Alpine Adventures is also considering the expansion of their snowmobile tour offerings by utilizing their private 300 acre terrain to create custom tours and outings for large groups and corporate trips. Alpine Adventures has always been committed to providing the highest level of customer service for groups of any size.

Contact Corey Swartz at Alpine Adventures for more information on all their upcoming plans and how they can accommodate your group and corporate customers.
